EasyEntri

Invoice to Tally. Auto-fill. Verified.

PLUGS INTO TALLY

100% OFFLINE

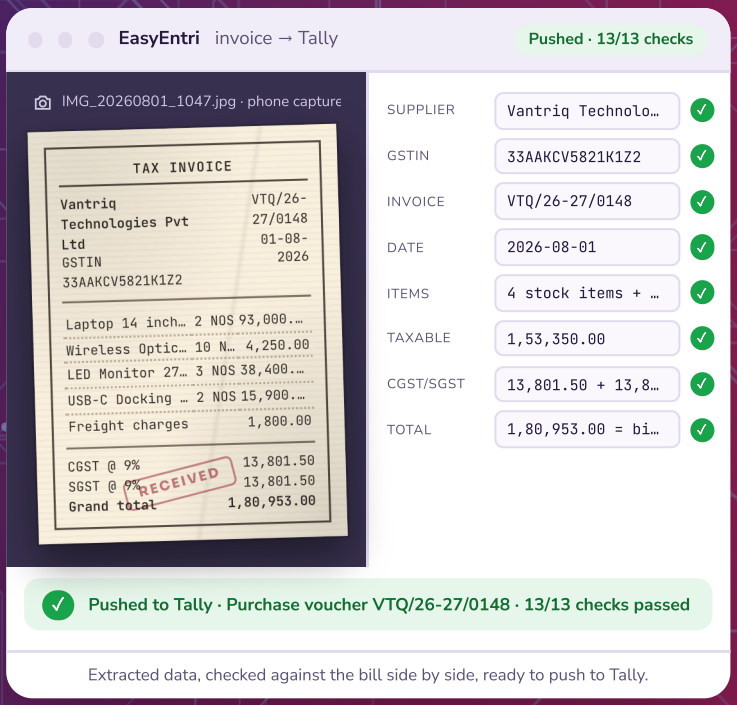

Shoot the bill. It lands in Tally.

EasyEntri reads purchase bills, PDFs and photos alike, into clean accounting entries on your own PC. No cloud, no internet, no typing.

90% less typing

3× bills per person

Zero AMC & subscriptions

HOW IT WORKS

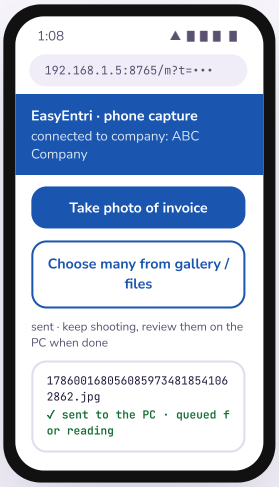

Three steps. The third one is Tally's.

1 Upload
Scanned hardcopy or phone-captured, both work. Shoot the bill on your phone and it reaches the PC over your own Wi-Fi, drop scanned PDFs and photos in bulk, or point EasyEntri at your scanner's folder.

2 Convert
OCR on your PC reads every field: supplier, GSTIN, invoice number, date, line items, HSN, quantities, rates and taxes, into clean, structured data.

3 Post
The entry lands in Tally with your own ledgers, stock items and voucher type. Review, approve, done.

✓ **Totally offline.** Your invoices, ledgers and entries never leave your computer.

Any phone. No app to install.

BUILT FOR INDIAN GST PURCHASE BILLS

It knows what an Indian bill looks like.

E-invoice QR, verified
The signed QR on a GST e-invoice is read and checked on the spot, so invoice number, date, GSTINs and total are exact. A QR meant for another buyer is ignored.

Multi-rate tax tables
Bills mixing 5%, 12%, 18% and 28% are split per rate with the right CGST, SGST or IGST ledger for each slab.

Freight and other charges
Transport, packing, insurance and courier lines go to the ledger you use for them, after the goods and before the taxes.

Your Tally, your style
Item Invoice or As Voucher, Purchase or

Checked before it posts
Totals re-added, GSTINs validated,

Learns your suppliers
Each supplier's layout is taught once and

ONE-TIME LICENCE

Buy it once. It outlasts every resignation.

A perpetual licence for one PC with guaranteed lifetime service support. No annual maintenance, no subscription, no per-bill charges. It pays for itself in weeks.
